PRINCIPALITY
OF SEALAND

Registration Deed

OF INDIVIDUAL NOBLE TITLE

This Individual Noble Title Award is approved and granted by Our Sovereign, the Head of State, and the Royal Family of Sealand, according to Principality law. This award is given in recognition of your financial support towards the welfare and development of Sealand.

THE PRINCIPALITY OF SEALAND
OFFICIALLY DECLARES THAT

Lady Paula Skoviera

HAS BEEN AWARDED THIS INDIVIDUAL NOBLE TITLE
FROM THE ROYAL FAMILY

This award is part of a worldwide initiative from the Government of Sealand to create awareness of our ongoing fight for freedom and independence. As our motto states "From The Sea Freedom".

YOUR UNIQUE PRINCIPALITY
REGISTRATION REFERENCE: **15326610686249**
DATE OF ENTRY INTO THE
SEALAND ROYAL REGISTRY: **28/09/2024**

THERE IS ONLY ONE OFFICIAL GOVERNMENT WEBSITE: WWW.SEALAND.GOV.GG
By accepting these Individual Noble Title Awards, the named persons on this Deed agree to accept the Terms and Conditions of these awards.
These persons will also consent and stay our Sovereign's laws and will always endeavour to protect the principles and values of Sealand.

AI ToolsRecap

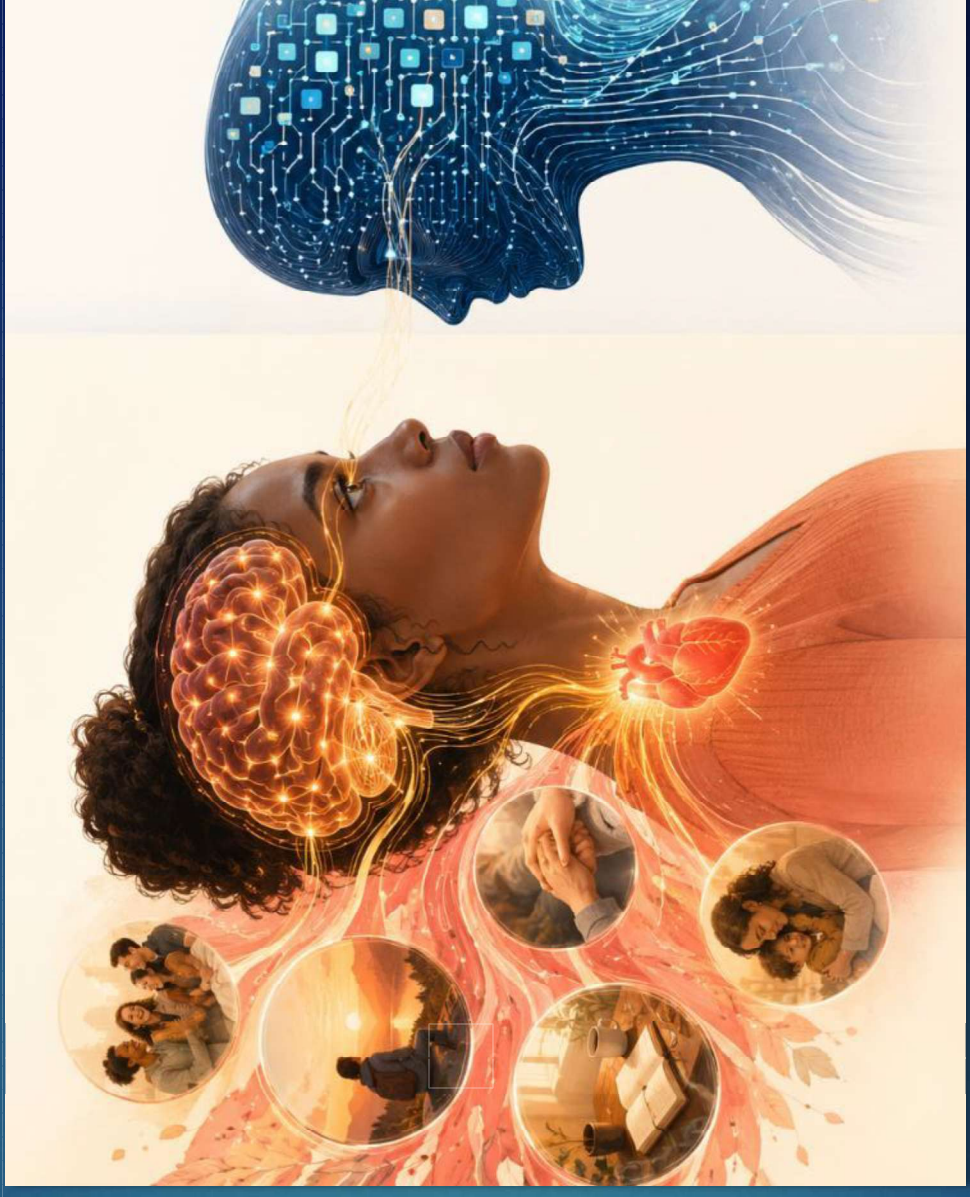

The Journal of Artificial Intelligence Tools

AIToolsRecap.com

Generative AI can produce creative, compelling, and remarkably human-sounding content, it does not understand information or experience the world in the same way humans do.

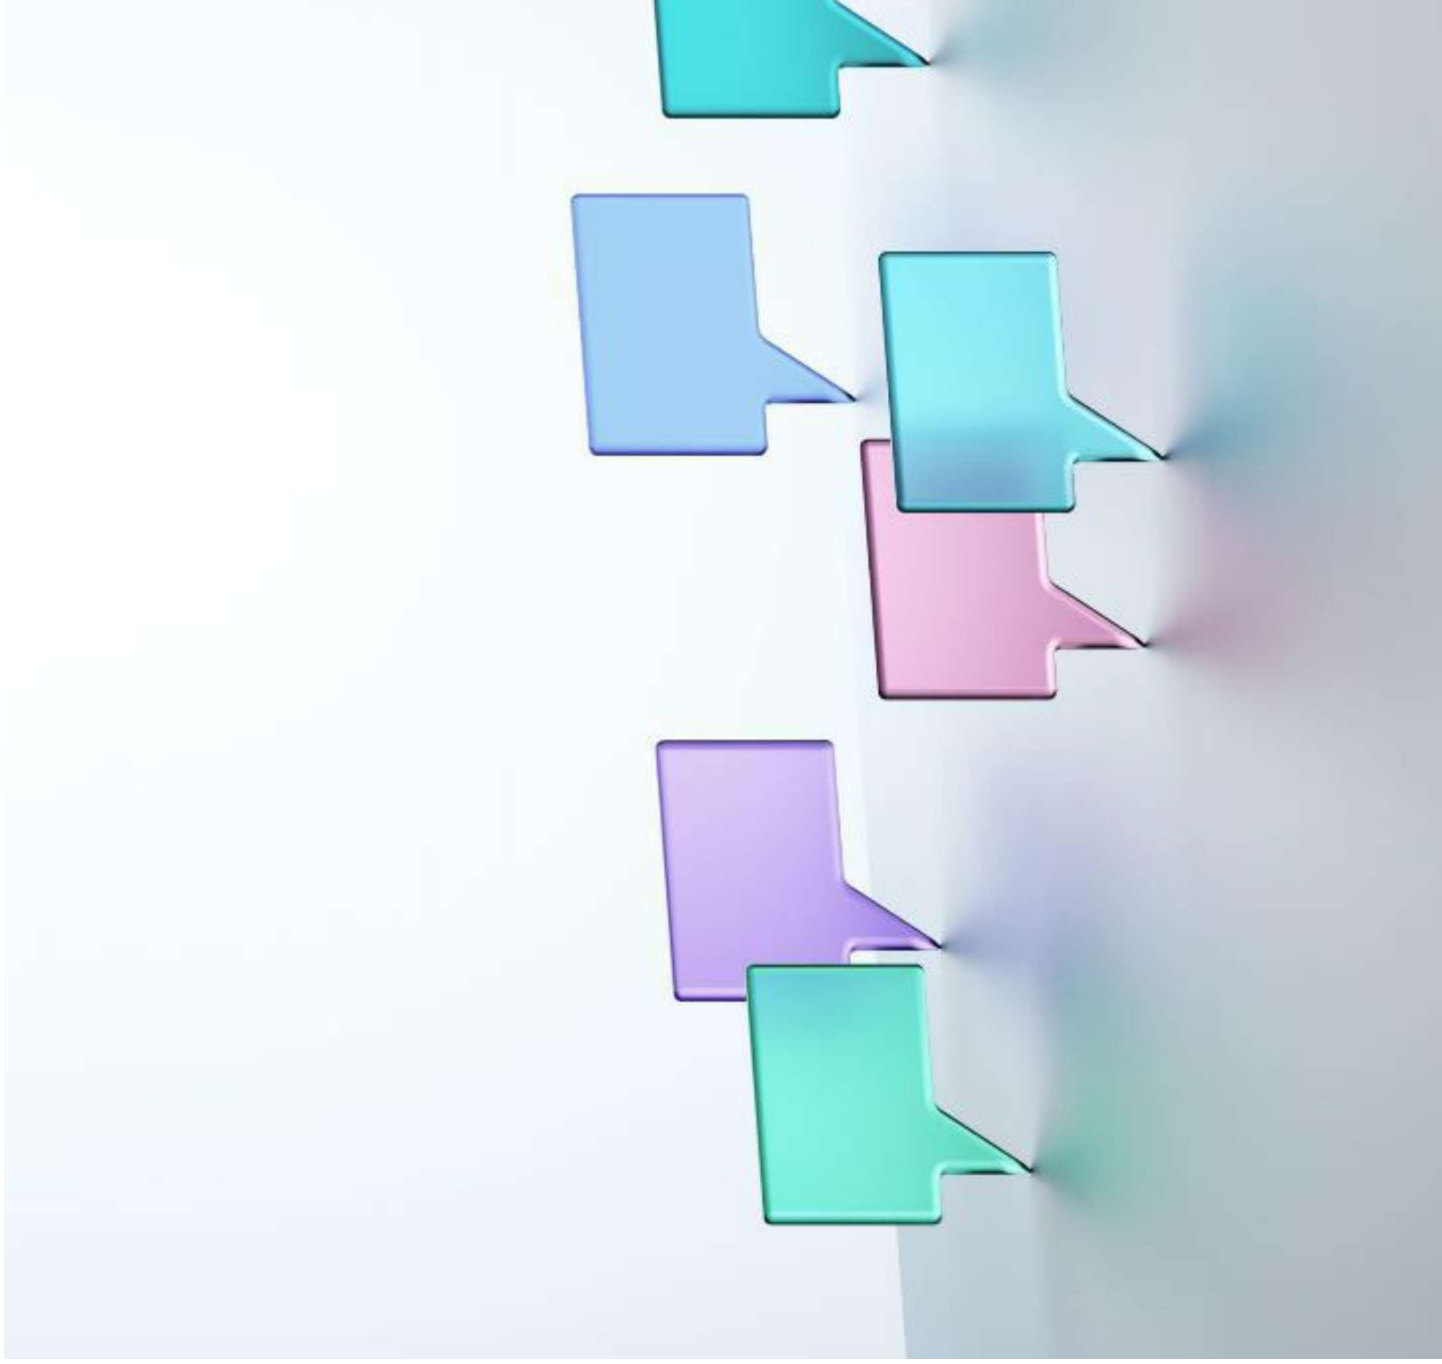

It does not have personal beliefs, emotions, desires, or lived experiences.

At its core, generative AI creates responses by processing patterns in data and predicting a sequence of words → the small units of text that make up words and sentences.

Who are my
Microsoft folks?

Microsoft 365 Chat

Combine the power of AI with your work data to unlock productivity and uplevel skills.

Copilot in Teams

Have more effective meetings, easily catch up on chats, and find information faster.

Copilot in Outlook

Start emails quickly, generate a summary, and catch up on long emails easily.

Copilot in Word

Start a draft, add to an existing document, rewrite text, or generate a summary.

Copilot in PowerPoint

Create beautiful presentations, organize presentations, and more.

Copilot in Excel

Go deeper with data, identify insights, generate formulas, and more.

Copilot in Steam

Quickly get summarize from you video content and ask specific question

Copilot in OneNote

Summarize your notes, create a to-do list, design a plan, and more.

Copilot in Loop

Plan, brainstorm, create, and collaborate easier to stay in sync.

Copilot in Whiteboard

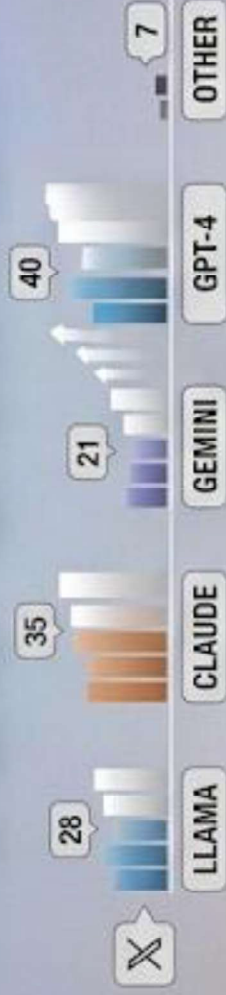

Creating, organizing, and understanding ideas has never been easier.

Copilot in Forms

Quickly create, add choices details, get question ideas

Before: “Get me nachos”

After:

A screenshot of a Google Maps search result for "Azul Tequila Bar & Grill". The top section shows two photos: one of the restaurant's exterior with the name "AZUL TEQUILA" on the sign, and another showing the interior patio area. Below the photos, the restaurant's name "Azul Tequila Bar & Grill" is displayed, followed by a 4-star rating, 1,449 Google reviews, and the text "0-20 · Mexican restaurant". To the right of the name are buttons for "Website", "Directions", "Reviews", and "Save". Below these are buttons for "Share", "Call", "Menu", and "Check wait time". At the bottom, there are two large blue buttons: "Order online" and "Check wait time". Below the buttons, a description reads: "Casual, vibrant eatery with festive decor offering Mexican plates & margaritas plus patio seating." Further down, the "Service options" are listed: "Serves happy hour food · Serves great cocktails · Serves vegetarian dishes". At the very bottom, the address is given: "Address: 2421 Hanley Rd STE 100, Hudson, WI 54016".

R = RELEVANT

E = EXPLAIN

G = GOAL

A = ARRANGE

L = LANGUAGE

RELEVANT

What does the AI need to know about the situation?

PLAIN

What specifically do you want it to do?

Example: I want you to create 2 social media posts per week for Instagram and Facebook

DAL

What should the final result accomplish?

Example: I want to create posts that people will engage with and leave comments.

RANGE

How should the response be structured?

Example: I want each post to be 2 lines long with an action item and a quote in each.

GUAGE

What tone, reading level, audience, style and length should it be?

Example: Write the posts so a millennial would find it funny in a Friends theme.

COMMUNICATION

I-PROOF ASSESSMENT & RUBRICS

Assessments students can't hand to ChatGPT.

AI detection tools don't work and banning AI doesn't scale. The fix is assessment design. RealPath rebuilds any lesson into an **authentic, process-verified assessment** — with the **scoring rubric written alongside it** — and pushes the finished pair straight into Canvas.

Process checkpoints, not just a final product

Timestamped observations, a teacher-signed interview, a verbal explanation to a partner. Evidence accumulates in class, where a chatbot can't follow.

The rubric is generated with the task

Four performance levels tied to your stated learning objectives, so scoring stays consistent across sections and holds up when a family asks how a grade was reached.

Anchored to your community, this week

Tasks built around local conditions and real audiences — a city council, a K-2 reader, a neighborhood problem. There's no generic answer to copy.

Students choose how they show it

Poster, PSA video, children's book, infographic — the product varies, the criteria don't. Choice raises engagement without loosening the standard.

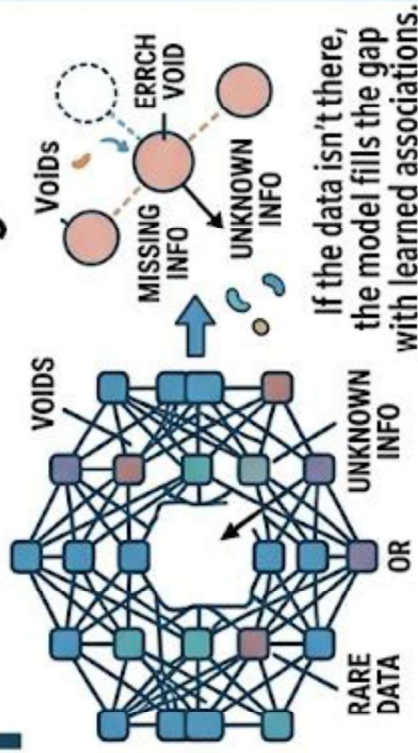

Shannon Seaver
shannon@stonearc.org

QUESTIONS?

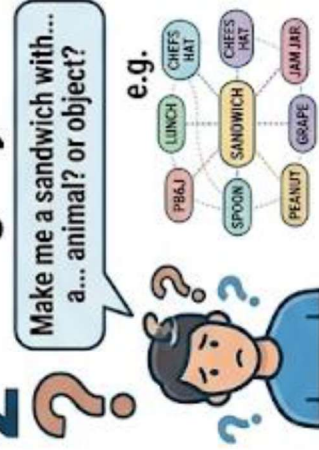

SIX REASONS WHY LLMs HALLUCINATE

1 Insufficient Training Data

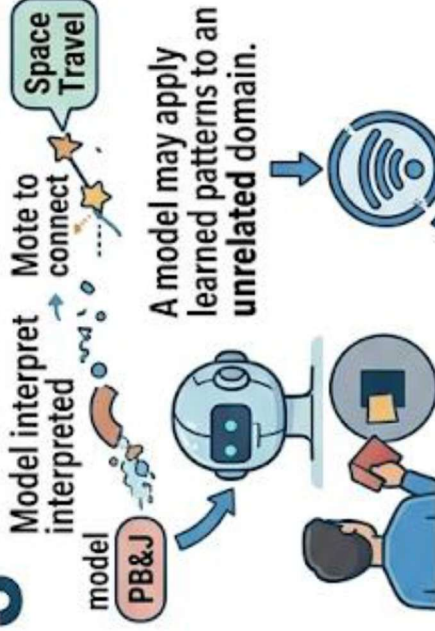

If the data isn't there, the model fills the gap with learned associations.

2 Ambiguity in

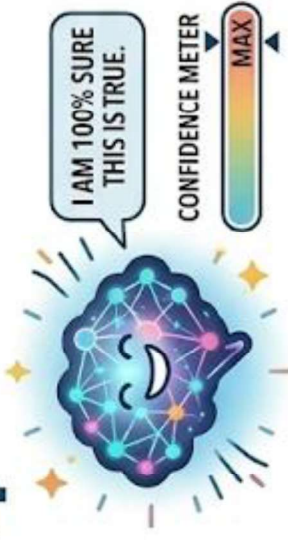

Multiple interpretations lead to incorrect predictions.

3 Mismatched Context

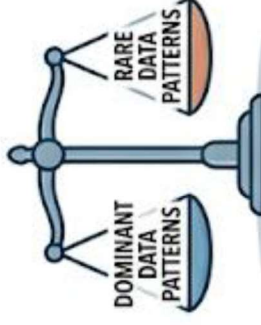

4 Lack of Real-Time

High-probability predictions can still be factually wrong.

5 Overconfidence in Predictions

Statistical prominence in data can lead to skewed and incorrect output.
